Put Fresh Cargo Handling

Testimonial from Moniek van de Put, Managing Director of J. van de Put Fresh Cargo handling

"J. van de Put Fresh Cargo Handling chose to locate at Amsterdam Airport Schiphol because it is the logistics multimodal hub for perishables trade. Imports to the Netherlands, exports from the Netherlands, as well as transit through the Netherlands can be coordinated from Amsterdam Airport Schiphol. In addition, the close proximity of Schiphol to the two largest flower auctions in the world (Flower Auction Aalsmeer and FloraHolland) makes it an interesting location for perishables trade. As a logistics service provider, we can offer services that importers and exporters need to do business worldwide. J. van de Put Fresh Cargo Handling and Amsterdam Airport Area are the best start and finish for perishables air cargo."
